

Ethical Statement

STORMTECH realise that we need to take responsibility for our world. Not only do they comply with all applicable environmental regulations and laws in the countries of production, but have gone a step further to create their own ethical production code.

The STORMTECH OurWorld Production Code ensures that no materials used in the production of STORMTECH gear contain any substances that are harmful to the environment.

Requirements are detailed for production facilities in the areas of air, water, and noise pollution, as well as recycling in order to minimise the impact they have on their surroundings.

Every production facility used by STORMTECH provides their consent to upholding this code. Before doing business with any third party manufacturer STORMTECH visit their facility to see first-hand if they can meet their environmental standards. The requirements of this code illustrates their support of the International Standard

Organisation's 14000 series of environmental standards, as well as other key international environmental initiatives.

STORMTECH are committed to protecting our world and conserving its natural resources. It's a healthy choice for the planet, and for the consumer who wears STORMTECH Performance Apparel.
